A Theory Of Incentives In Procurement And Regulation

[A Theory Of Incentives In Procurement And Regulation](#)

[A Theory of Incentives in Procurement and Regulation](#). By Jean-Jacques Laffont and Jean Tirole. Based on their pathbreaking work in the application of principal-agent theory to questions of regulation, Laffont and Tirole develop a synthetic approach, with a particular, though not exclusive, focus on the regulation of natural monopolies such as military contractors, utility companies, and transportation authorities.

[A Theory Of Incentives In Procurement And Regulation](#)

In this book, Jean-Jacques Laffont and David Martimort present the most thorough yet accessible introduction to incentives theory to date. Central to this theory is a simple question as pivotal to modern-day management as it is to economics research: What makes people act in a particular way in an economic or business situation?
